

Road Trip!

Destination.....Festival!

From now until the end of February, we're going on a road trip!

You and your practice partner will share a car traveling from one side of the U.S.A. to the other...with stops at cities and towns along the way. There are four routes across the U.S.A...your route will be determined by the color of your team's car. Each route has 24 stops that you will make based on how much practice you put in...and whether you complete an extra practice activity each week. The practice event will stop at the end of February, with everyone receiving a treat based on how far their team's car has traveled!

You will receive more details at your lesson, but the road Trip starts on Monday, January 2....let's go!

Let's take this road to Festival and make it a great trip! Happy practicing!
